

TRAVIS COUNTY, TEXAS

# Public Works Director

Transportation and  
Natural Resources (TNR)

TRAVIS COUNTY

Travis County's Transportation and Natural Resources (TNR) department is seeking to fill the Public Works Director position with an authentic and dynamic leader. Come work for one of Forbes' 2019 Best Large Employers in Austin, Texas.

The model candidate should have a proven track record of ensuring consistent and effective execution of systems and processes that makes optimal use of department and organizational resources. Candidate will meet the ever-changing needs of a highly visible and complex department with a budget of over \$30M – Operations and Maintenance and \$50M Capital Improvement Program and 225 employees. The position is ideal for a leader with innovation; one who establishes vision and direction, fosters and builds team confidence, and has the ability to motivate others to reach a common goal. To be successful in this position the ideal candidate must be proactive, embrace and lead change, and be people-centric. Having the ability to lead with tenacity and diplomacy is essential in this role. Applicants that fit this profile and have a strong background in governmental public works and are innovative, collaborative leaders are strongly encouraged to apply.

## Job Summary

The Public Works Director is a vital member of the TNR senior leadership team. As a direct report to the County Executive and Chief Deputy, the Public Works Director has oversight of the strategic planning, development, implementation, and evaluation of business and administrative functions for key business units, specifically; Road and Bridge Maintenance, Fleet Services, Capital Improvement Program and Survey Services. The position provides leadership and strategic guidance to not only the Public Works Division, but County Officials, Department Heads and Outside Agencies. The Public Works Director also serves as a professional technical advisor and is responsible for overseeing and monitoring that service delivery follows applicable laws, rules, regulations and applicable standards and procedures established by the state, Commissioners Court and the division. To drive impact, the Public Works Director has to be a forward and critical thinker that operates with integrity, personal and team accountability, and functions as a leader in innovation.

In addition, the ideal candidate is one who has the ability to quickly acquire business acumen, successfully manage competing demands and priorities, empower and motivate diverse teams with varying skill sets, all while striving to deliver services in an innovative, efficient, and quality manner. The ideal candidate is (a)...

- Resilient

## Distinguishing Characteristics

This is a job classification within the Management job family. This classification is intended to describe the most senior division director level positions in one of the largest, most complex County departments responsible for four or more of the business functions, including road and bridge maintenance, fleet services, capital improvement program and survey services. This classification typically directs through subordinate managers and supervisors.

## What will you be expected to do in this role?

### You will:

- Develop and direct core business functions and operations of the division; manages the day-to-day operations through subordinate managers and supervisors.
- Provide vision, guidance and oversight of outputs for the Assistant Public Works Director – Road and Bridge Maintenance, the Assistant Public Works Director – CIP, the Fleet Division Manager and the Survey Records Manager, and ensures activities are consistent with county-wide goals and objectives; seek and create opportunities for improved performance, learning and development of staff; and identify and addresses problems and/or resolves conflicts.
- Manages the resources of the division to ensure projects are completed on time and under budget; develops and implements plans for financing improvements; and reviews plans, reports, budget estimates and proposals.
- Negotiates and oversees services contracts, agreements and services assuring financial integrity. Oversees the preparation of bid documents and contracts and manages these contracts to successful completion.
- Monitors and oversees that services delivered are in compliance with statutory applicable laws, rules, regulations and applicable standards and procedures established by the state, court and the department.
- Coordinates and works closely with officials, department heads, multiple outside suppliers, other County employees and outside agencies. Serves as a professional technical advisor and may represent the division and/or County with customers and media.
- Develops, directs and manages division human resources, equipment, and budget. Plans future budgetary requirements. Evaluates and reports on division performance. Uses statistical process to continually monitor and improve quality of processes and output.
- Directs the planning, development, and implementation of strategic short and long-term plans.
- Prepares high-level analysis of fiscal impact of various programmatic and policy-related decisions for policymakers. Provides management support to executives and administrative oversight of the department. Evaluates, plans and implements systems, processes and procedures to maximize office efficiency.
- Develops or assists in developing and implementing comprehensive business continuity and operational development plans that establish goals and objectives for the department.
- Represents the department and serves as a liaison for local and statewide committees and task forces, advisory groups, and the general public. Serves as spokesperson to media and outside agencies.
- Participates as a committee member and researches process improvement strategies for departmental operations; measures results of activities.
- Performs other job-related duties as assigned.

### Minimum Qualifications

Bachelor's degree in Civil Engineering AND eight (8) years of directly related, increasingly responsible and varied professional engineering project management, developing and managing public works, or municipal management experience, including five (5) years of senior level management, project management and/or administrative experience. Licensed to practice as a Professional Engineer (P.E.) in the State of Texas issued by the Texas Board of Professional Engineers. If licensed in another state, must acquire license reciprocity in the State of Texas within six (6) months of date of hire.

### What We Prefer

Master's degree in Civil Engineering or closely related field.
